TESTED TO THE HIGHEST STANDARDS

All Jaguar accessories are rigorously tested and inspected to ensure absolute quality and lasting driving pleasure. They meet the exacting standards you expect from Jaguar, while working in total harmony with your vehicle. Accessories are tested in extreme hot and cold temperatures to ensure they will perform in all conditions, year-round. Corrosion resistance testing ensures accessories can withstand demanding climates, such as coastal conditions, while a series of tests ensures seamless integration with the existing safety features of your Jaguar vehicle.

Accessories are also put through their paces via bespoke testing specific to their design, function and the materials from which they're made.

Exterior accessory testing, for example, includes:

- Exposure to up to two years of direct sunlight known as 'Florida Weathering'
- Heat Aging Test for 500 hours
- Extreme Heat Test ranging from -40°C to 80°C
- Heat Shock Testing during which parts are cooled to -40°C for 16 hours, then heated to 70°C for 5 minutes
- Humidity Resistance Test where accessories are subjected to 168 hours at 48°C in 95-100% humidity
- Accelerated Environmental Cycle Testing comprising a relentless barrage of salt, dirt and dust to simulate a lifetime of real world driving
